CIRED International Conference is the most prestigious, scientific and technical reference in the field of power distribution worldwide.

During nearly two decades, Iran's successful presence in CIRED conferences and workshops, caused to be received the National Committee membership in November 2016. Prior to this, according to the ongoing activities of CIRED Committee of Iran in accordance with the scientific goals of CIRED International, NC of Iran received the necessary permission to hold regional conferences in Tehran and from 2013 to 2019 continuously held seven regional conferences in Tehran in which the representatives of CIRED International attended the first and seventh regional conferences, as speaker and keynote speaker.

Now, in order to continue this growing trend, the 8th CIRED regional conference will be held in the 21-22 January 2020 in Tehran with participation of Iranian scholars and other countries in the region.

The conference organizers hope to receive valuable articles of scholars to be able to take a positive step toward developing and expanding the power distribution industry and exchanging knowledge and scientific findings among Iranian scholars and countries around through adequate planning for holding this conference.
